

BEAUTY & HARMONY for face and body,

Two cosmic features of ARGITAL GREEN CLAY

ARGITAL GREEN CLAY is soft, smooth, pliable and creamy. It is a natural anti-ageing element which protects, moulds, regenerates, stimulates and maintains youthful skin. It is rich in mineral salts and natural sea oligoelements; it is extracted from a cave near the Mediterranean sea in the deep south of Sicily, where the area is clean and unpolluted, is sunny and breezy most of the year. ARGITAL Green Clay absorbs stress and free radicals, leaving a silky, smooth, and supple skin.

Fine Powder for face, body and hair, sun-dried GREEN CLAY

All ARGITAL products are 100% natural - preservative-free - cruelty-free

Cod. 2040 500 gr
